

Acrobat slow scrolling in terminal server or RDP, Terminal Server, Citrix and 2X

From the Main Menu In menu "View -> Page display", it was set to "Single page"

1. From the Main Menu In menu "View -> Page display", set to **"Single page continuous"** fixes scrolling problems.
2. From the Main Menu choose Edit – Preferences
3. Select the Page Display Tab
4. Set Smoot Text to None
5. Uncheck all Rendering options except Use Local Fonts
6. Click Ok to save
